GNSS Jamming and Spoofing System in the Air, Land and Sea

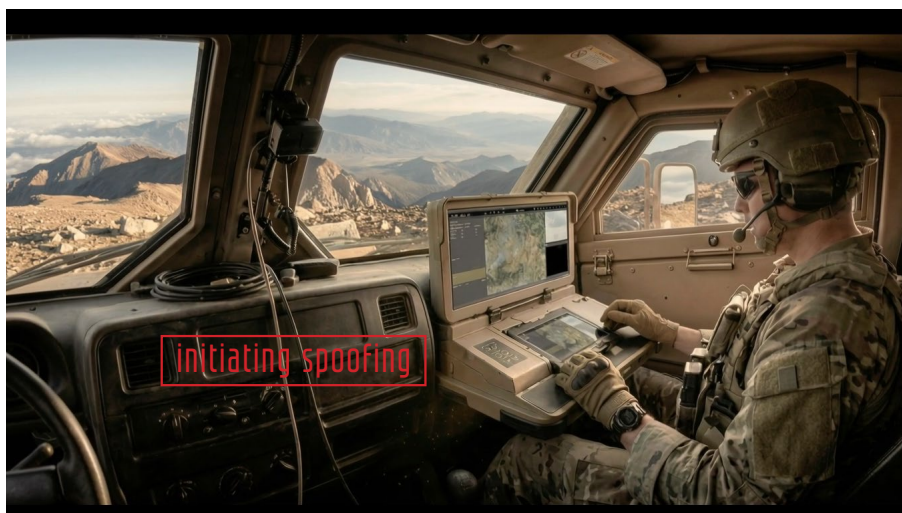

Elbit Systems™

ISTAR & EW - Elisra

Xsense | GNSS Spoofing

GNSS Jamming and Spoofing System in the Air, Land and Sea

Solution Highlights

- Highly effective GNSS jamming and spoofing system
- Designed to handle aerial threats
- Wide installation base: Sea, Land and Air

State-of-the-Art technology

- Multi-constellation support
- Advanced jamming and spoofing technique generators
- Flexible technique configuration
- High output power and sector antennas for optimal coverage
